<p>*A combined anatomy and physiology course taken in or outside of Kinesiology will be considered as fulfilling the ANATOMY 403 requirement only if it was a one-term course that covered all of the body systems. The first course of a two-term sequence which covers only ½ of the body systems will NOT fulfill the ANATOMY 403 requirement. Outside courses must be approved via petition.</p> <p>** Three credit hours of Independent Study, Internships, Readings, or Research courses in Movement Science can be substituted for three credit hours of the Upper-Division Movesci lecture-based courses with the exception of MOVESCI 280/UC 280 which will not count as upper-level elective credit.</p> <p>*** Courses must be selected from the approved list which can be found in the Kinesiology Bulletin or on the Kinesiology website. Six (6) credits must be earned outside Kinesiology.</p>											
<p>Study Abroad (optional) Please see Global Engagement Coordinator for more information. Kinesiology exchange partners offer movement science courses; other programs are available for general transfer credit and distribution credit (if pre-approved).</p>
